SCIENCE TIME: LIVE!

March 27th, 2020

Thank you for watching along with us at home! Be sure to pay close attention and see if you can answer any of these questions below throughout the show. Also, be sure to submit your questions to us in the comments for a chance to have them answered LIVE!

Circle the correct answer.

1. Electricity comes from which part of an atom?

- A. Neutron B. Electron C. Proton D. Waxon

2. Humans are good conductors of electricity.

- A. True B. False

3. When you go down a slide and then touch your friend, you might shock them. What type of electricity is this?

- A. Static Electricity B. Hydroelectricity C. Crazy Electricity D. Thunderstorms

What was your favorite part of our Exciting Electrons show?

Can you draw what you saw on the final experiment? Be sure to comment a photo of your drawing for a chance to be featured at the beginning of next week's Science Time Live!

A large, empty rectangular box with a black border, intended for a drawing.
